

See nothing, hear everything

The CCM7.3 is a 3-way speaker that features a 25mm(1in) soft dome tweeter, 100mm (4in) FST™ Kevlar® mid-range and 2 x 130mm (5in) bass drivers. With the bass and mid-range drivers set in a die-cast chassis the CCM7.3 incorporates some of the proven technologies from the CT700 Series alongside new additions such as a critically formed baffle constructed from glass reinforced ABS. The baffle features a scallop under the tweeter which creates the perfect roll off for high frequencies resulting in a more accurate reproduction of sound.
