NR1506

SLIM DESIGN NETWORK AV RECEIVER

If you (or more likely, your partner) don't want big, imposing cabinets in your living room, then consider the slim-line NR1506 AV Receiver. Because, although it is super-slim it packs the same punch as its bigger brothers, delivering ear-cracking, five-channel surround sound from 85W per channel and decoded Dolby True HD and DTS-HD audio. It also has Bluetooth® and WiFi built-in, so you can enjoy your digital media files on this beautiful set from wherever they are stored. Also, even though it is a slim-line receiver, it boasts the same networking facilities for audio streaming as its bigger cousins. It gives you Internet radio, AirPlay and Spotify Connect – as well as Gapless HD Audio and DSD streaming. But it's not just the audio that is spectacular with the NR1506. The advanced video section features 6 HDMI inputs (including 1 on the front panel), providing full compatibility with the latest 4K Ultra HD video specification, including 60 Hz full rate pass-through. It's also HDCP 2.2 compliant, which is a requirement for 4K Ultra HD copy-protected content. Set-up is easy - with the help of the Hybrid GUI, Setup Assistant, Audyssey MultEQ and Microphone – so there is no need to study the manual, just follow the on-screen instructions. The NR1506 includes a smart ECO mode that can automatically save significant electrical power. It all adds up to easy-to-use slim-line elegance with Smart Select buttons and a powerful punch.

Main Features

- Wi-Fi and Bluetooth built in
- Dolby TrueHD and DTS HD Master Audio
- 5ch discrete power amplifier, 85 W per channel
- Audyssey MultEQ auto speaker setup and room calibration
- Latest HDMI version with 4k 60Hz 4:4:4 resolution
