Installation
Video

Designed for installation of SONOS One, ONE SL and Play:1 speakers in ceilings and walls

Description

The Gineos system allows the professional installation of SONOS One, ONE SL and Play:1 speakers in ceilings and walls. The robust and high quality adapter integrates in ceilings and walls with an elegant and very low profile and magnetic design cover.

Features

- Effortless installation of SONOS ONE series in drywall constructions
- Minimum installation depth of only 123 mm plus cables & connectors
- Defined openings for cables and speaker outlet
- The SONOS loudspeaker is fixed and protected within the adapter
- Acoustic optimized magnetic design cover easily detachable
- Secure fixing of speaker and adapter in walls and ceilings

i Easy installation in concrete ceilings as well as brick and concrete walls:
Euroboxx M (SKU: 1022220)
Euroboxx M wall (SKU: 1022221)

i The use of a LAN right-angle plug is recommended.

Scope of delivery (per piece)

- 1 Gineos installation kit for Sonos One, One SL, Play:1
- 1 high-quality design cover in white or anthracite
