- Versatile & Robust

Supra USB 3.2 Type A to C Cable (Gen 2) - Unleash High-Performance Connectivity

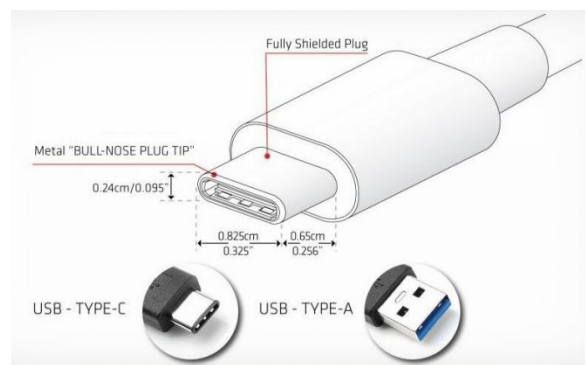

Elevate your digital experience with the Supra USB 3.2 Type-A to Type-C Cable. Designed for professionals and tech enthusiasts alike, this premium USB cable offers unrivaled performance and durability. The characteristic impedance is perfectly matched for best high end digital audio transfer.

- **Cutting-Edge Speed & Power:** With support for up to 10 Gbps data transfer and 60W power delivery (3A), this cable ensures fast and reliable charging for your devices, including laptops, smartphones, and tablets.
- **Precision Engineering:** The Supra USB 3.2 cable features gold-plated connectors and heavy-duty plugs for enhanced conductivity and long-lasting durability. It's built to withstand rigorous use while maintaining optimal performance.
- **Superior Shielding for Stability:** Experience uninterrupted data transmission with double-shielded cabling that minimizes interference and signal loss. Whether you're transferring files, fast-charging your devices or streaming high quality audio you can count on consistent and smooth connectivity.
- **Designed for the Future:** As a USB 3.2 Gen 2 cable, this product is ready to support your high-demand devices and future tech needs, making it the perfect investment for professionals who rely on top-tier performance.
- **Versatile & Robust:** With a durable build and sleek design, this cable is perfect for both everyday use and professional settings. The reinforced construction ensures longevity, while the gold-plated contacts guarantee stable connections.

Upgrade to the Supra USB 3.2 Type-A to Type-C Cable and experience the difference that premium quality and high-speed performance can make!

CONSTRUCTION

Cable: SUPRA USB 3.2
 Type: 3.2 Super High Speed
 Jacket: PVC GA78, round
 Diameter: 5 mm
 Colour: Ice blue
 Marking: SUPRA Cables USB 3.2 Gen2 USB PD 24W/100W
 Plugs: SUPRA USB A male <-> SUPRA USB C male.
 Packing: Carton 18x18x3.5cm

ELECTRICAL SPECIFICATION

Bit rate: 10 Gbps
 Power output: 60W/3A (Power Delivery up to 100W/5A)
