# RUBIKORE CINEMA

## The ultimate compact and powerful LCR home cinema loudspeaker

The DALI RUBIKORE CINEMA strikes a perfect balance between versatility, size and performance to be the ultimate DALI LCR loudspeaker. Its two 6½-inch low-loss, Clarity Cone™, wood fibre woofers deliver both expansive, extended bass, and the transparently explicit midrange quality so vital for centre channel roles. And the rotatable Hybrid Tweeter module adds wide dispersion, high frequency finesse and detail, on top of both portrait and landscape mounting options. The RUBIKORE CINEMA is a full-blown LCR solution for the highest performance home cinema systems.

### EVOLUTION THROUGH KORE TECHNOLOGY

The RUBIKORE CINEMA brings multiple DALI KORE loudspeaker technologies to the home theatre front and centre channel roles. Its Clarity Cone™ Technology bass/midrange driver diaphragm helps ensure natural midrange clarity, free from colouration, while its DALI SMC motor systems minimise driver distortions and losses. In addition to its rotatable Hybrid dome and planar tweeter, within its crossover circuits, the RUBIKORE CINEMA employs audiophile grade Mundorf™ capacitors to reduce losses still further.

### EXCEPTIONAL ACOUSTIC PERFORMANCE

The RUBIKORE CINEMA brings high performance loudspeaker solutions to the left, centre and right channel roles in home theatre systems where brilliant, high-end sound quality is non-negotiable.

### DANISH FURNITURE DESIGN AND HIGH-END FINISHES

The long tradition of Danish joinery and cabinet making craft is fully expressed in the RUBIKORE CINEMA. Its versatile cabinet design is able to accommodate both landscape and portrait orientation and is exquisitely crated and finished. And in parallel with its aesthetic quality, the RUBIKORE CINEMA cabinet also provides the immensely rigid and inert platform that high performance electro-acoustics demands.

### HAND-CRAFTED BY DALI

The RUBIKORE CINEMA is hand-crafted and assembled at DALI in Denmark and is predominantly a product of in-house skill, expertise, design, and manufacture. But in addition to its Danish assembly, the RUBIKORE CINEMA also calls on numerous nearby component suppliers and skills to reinforce its fully Danish roots. The RUBIKORE CINEMA is Danish to the core.
